

Join Us: One Home One Future

Together, we are called by our faith to care for our given and shared home. We will work toward a healthy world and thriving local communities by visibly supporting clergy and congregations, within and across faiths, in a changing climate.

You and your congregation can be part of a national creation care campaign, whether you are just getting started or already on your way.

One Home One Future is a national multi-faith campaign to strengthen vitality, relevance, and community connection across generations in local congregations. It is a coalition effort of US faith denominations and organizations for visible and collective climate action by people of faith to educate, activate, and empower clergy, congregants, youth, and all spiritual people in meaningful and just climate solutions.

Why Should You Join One Home One Future

Creation care has the power to strengthen your congregation with new energy and purpose. It can support existing congregational priorities and programs, and enhance your everyday lives. The sample actions below are just some of the ways that creation care can integrate into your current work and priorities. Joining One Home One Future gives you access to a rich array of free information, tools, and guidance, seven accessible pathways for action, and connection with congregations nationwide working to care for our shared home.

- **Build Thriving Congregations:** Engage in the pathway to action that aligns with the spirit of your congregation. Start with an easily achievable task, and build on your successes.
- **Empower Leaders and Youth:** Support congregational leaders through trainings and resources. Listen to, learn with, and support young people in creation care actions.
- **Engage & Strengthen Communities:** Partner with neighboring congregations on a creation care event for your local community; create spaces to talk about solutions.
- **Work Toward Justice:** Learn how climate magnifies the issues important to you and work toward solutions. Find and learn from those already leading on climate justice.
- **Restore Healthy Creation:** Get your congregation outside for prayer, worship, or engagement in your community and take action to help heal creation.
- **Strengthen Resilience & Preparedness:** Create a disaster preparedness plan for your congregation, which includes checking on vulnerable individuals within your community.
- **Allocate for Climate:** Shift personal and congregational spending to support sustainable products and services. Use green banks and credit cards, and encourage your denomination to invest in clean energy.
